

▲ LIGHTWEIGHT. COMFORTABLE. DURABLE.

# ARTEMIS MST AA120 ULV Cold Sprayer/Fogger

**BATTERY POWERED WITH 2.5 HOURS OF CONTINUOUS SPRAY.**

Built with a RUGGED 700-Watt induction motor and fan generating an amazing 38,000 RPM and air speed of 426.5 feet per second with the ULV traveling in excess of 40 feet! Almost double the speed of anything on the market!

Used for any ULV application labeled products, Acids, pesticides, oxidizers, surface sterilizers, Mold Remediation Chemicals, air duct cleaning and sterilizing, odor control, among many more.

A reliable and powerful electric high speed (38,000 rpm) AC induction motor and fan to create very small spray droplets in the 15-30um droplet size range using the principles of a vertical air shear nozzle (twin heads). The fine aerosol droplets will remain airborne for a long period of time and are dispersed over a large area by the powerful air outlet at the nozzle.
