

▲ Quick, reliable, low-cost hand-sanitizing solution.

STERILOC SHIELD

Practicing hand hygiene, including hand washing with soap and water, or using a hand sanitizer when soap and water are not readily available, is one of several prevention measures recommended to reduce the spread of SARS-CoV-2, the virus that causes coronavirus disease 2019 (COVID-19).

Steriloc Shield is a convenient, cost effective, automatic, touchless unit that dispenses sanitizer to both the top and bottom of your hands in seconds. It can sanitize up to thirty people per minute with up to 5,000 dispenses between refills.

Using a Steriloc unit with Artemis hand sanitizer can help to reassure workers, customers, students, guests and others that your facility is as safe as it can be during the pandemic and beyond.

▲ USE IN

- **SHOPPING CENTERS:** Allow all customers to sanitize their hands quickly and effectively as they enter a store.
- **HEALTHCARE FACILITIES:** Properly sanitizing hands mitigates cross contamination between staff and patients in higher-risk healthcare environments.
- **CONSTRUCTION SITES:** Robust, all-weather, battery-operated Steriloc systems can provide hand sanitization outdoors on building sites.
- **SCHOOLS:** Prevent the spread of germs and encourage awareness of hand hygiene. Steriloc units can help to cut down on absences through illness.
- **FOOD PROCESSING FACILITIES:** Ensure compliance in this high-risk industry by linking building entry turnstiles and doors to Steriloc units.
- **PLAYGROUNDS:** Child-friendly, easy-to-use, waterproof, safe and accessible to all.
- **OFFICES AND RECEPTION AREAS:** From reception desks to unmanned entrances, Steriloc provides hand sanitization for all your employees and visitors.

▲ FEATURES AND BENEFITS
