

CAPABILITIES STATEMENT

Artemis Bio-Solutions manufactures and distributes EPA-registered high-level disinfection, decontamination, and cleaning products that can help your organization address multiple biological and chemical threats, including COVID-19 challenges.

Our expertise in developing customized solutions and protocols, along with our US-based manufacturing, provides you with continuous and reliable capabilities and a sustainable supply chain.

Whether base of operations, rapid response, remediation, or disaster preparedness, Artemis Bio-Solutions stands ready to support your mission.

DIFFERENTIATORS:

Patented Technology

Official licensee of Sandia National Laboratory and its patented Sandia DF-200 decon formulas for commercial and professional use.

Custom Protocols

Ability to provide custom decontamination protocols across all industries, including federal, state and municipal agencies.

Kitted Solutions

Customized kitted and bulk distribution solutions to support national and international missions.

Specialized Programs

Specialized programs for schools, corrections facilities, medical facilities, disaster response centers, and more.

Training Institute

Microbial Warrior Academy: the premier training institute for crime scene and disaster multi-level bio-risk mitigation.

PAST PERFORMANCE:

- 👉 Rapid response to COVID-19: \$7M product sold in support of residential and commercial industries across the U.S.
- 👉 \$10M contract to decontaminate residential properties contaminated by imported drywall.
- 👉 Provided disinfection consulting and support services to Fortune 500 companies.
- 👉 Provided large scale mitigation services to correctional facilities.
